NATIONAL SERVICE SCHEME (NSS)

REPORT ON NATIONAL BLOOD DONATION DAY

01 October 2026

1. Introduction

Bhaskar Engineering College organized a National Blood Donation Day programme on 01 October 2026 with the objective of creating awareness about voluntary blood donation and encouraging eligible students, faculty and staff to contribute to this noble cause. The programme promoted the importance of safe and voluntary blood donation and highlighted how donated blood can help patients in emergency and medical situations.

2. Programme Details

Name of the Programme	National Blood Donation Day – Blood Donation / Awareness Programme
Date	01 October 2026
Organized by	Bhaskar Engineering College
Activity	Voluntary Blood Donation and Health Screening
Participants	Students, faculty, staff and medical/health-care personnel
Venue	Bhaskar Medical College & Bhaskar General Hospital premises

3. Objectives

- To create awareness among students and staff about the importance of voluntary blood donation.
- To encourage eligible individuals to become regular voluntary blood donors.
- To support patients who require blood and blood components during treatment and emergencies.
- To promote a sense of social responsibility and community service among students.
- To provide basic health screening before blood donation under the supervision of qualified medical personnel.

4. Activities Conducted

The programme was conducted with the support of medical and health-care personnel. Participants were guided through the registration and screening process before donation. Basic health parameters were checked, and eligible volunteers were guided through the blood donation procedure. The event also served as an awareness activity on the importance of maintaining a healthy blood supply through voluntary donation.

5. Participation and Medical Support

The photographs from the programme show students, faculty and medical personnel participating in the event. Medical staff assisted with screening, blood-pressure assessment, documentation and the donation process. The presence of trained medical personnel helped ensure that the activity was conducted in an organized and safe manner.

6. Outcome of the Programme

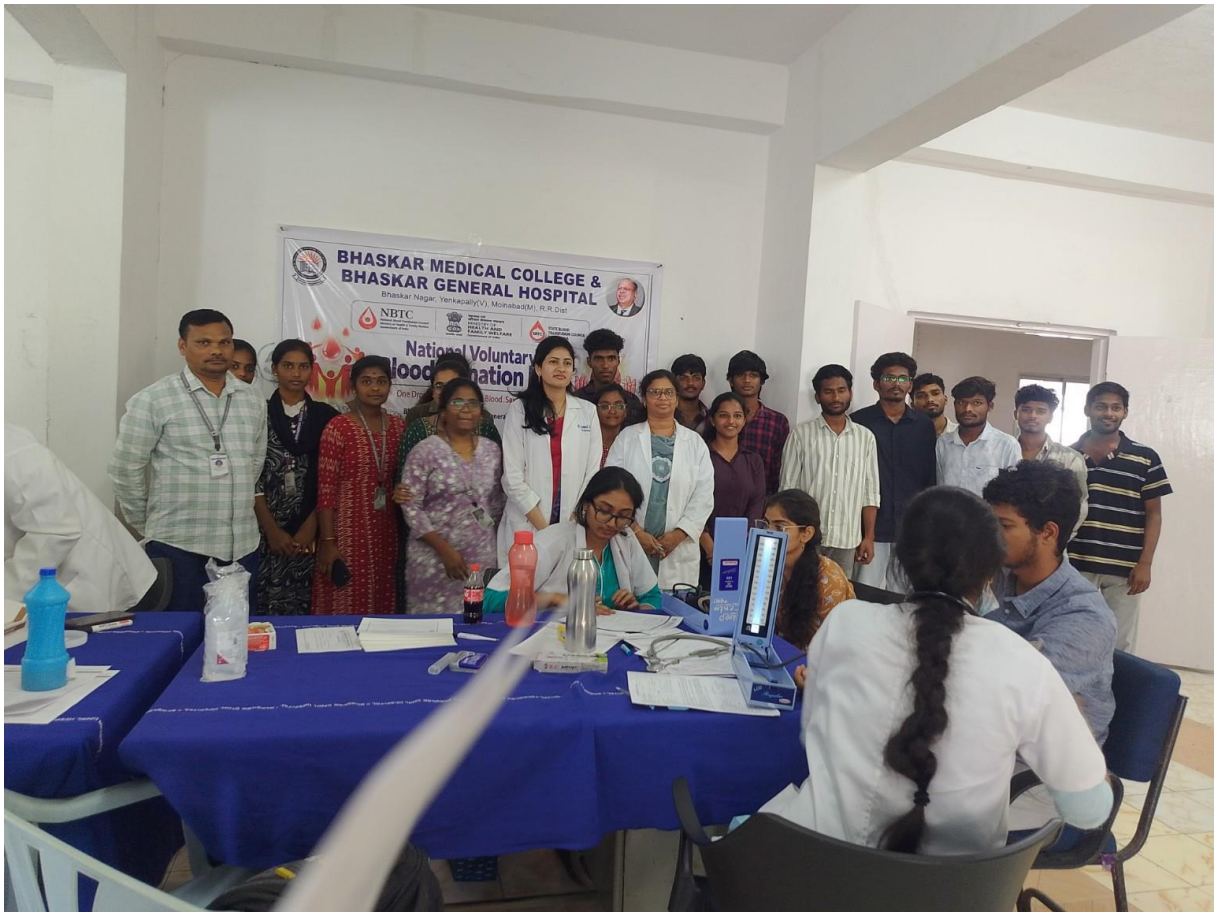

- Students and staff gained awareness of the social importance of blood donation.
- Eligible volunteers were encouraged to participate in voluntary blood donation.
- The programme strengthened the spirit of community service and social responsibility.
- Participants received an opportunity to understand the basic screening and blood donation process.
- The activity contributed to the institution’s commitment to community-oriented service.

7. Conclusion

The National Blood Donation Day programme conducted on 01 October 2026 was a meaningful community-service initiative of Bhaskar Engineering College. The programme successfully brought together students, faculty and medical personnel to promote voluntary blood donation and health awareness. Such programmes help develop social responsibility among students and encourage them to contribute positively to society.
