Report on Induction Programme for First Year Students – 2023-2024

**Day-1 (01-09-2023)**

**Topic: Induction Programme**

An 'induction Programme' was organized to welcome the first year students who were admitted to Engineering program at the institute premises on 01/09/2023 where students had been welcomed by the Management and Principal of Bhaskar College of Engineering. The objective of the programme was to build the students aware of the academic aspects of the course, the rules and regulations of the Institute and ensure parental participation in monitoring the performance and improvement of the students.

The day was marked with the charisma of BEC Principal Prof. Dr.Sumagna Patnaik, distinguished educationist and Prominent administrator as a welcome speech for the First year students and to encourage confidence to the students as well the parents. The speech was very effective to inculcate the inspiring words to embolden the students to encourage discipline, strategies to promote overall development programmes of our college. This was followed by a welcome speech the distinguished guest, eminent, versatile speaker and orator of BPC Principal Dr. A. Srinivas Rao to brief the prominence of our college, placements to the students and to motivate parents and faculty of BEC.

The next session was followed with our eminent faculty of English Mr. Raheem Khan to make students aware of the current scenario to face the challenges of life and to build their career. The speech was very effective and complacent to outshine glittering luster to bring out their innate talents.

Next, the class was followed with a great cheer of S&H Dept. faculty of mathematics, Mr. Md. Osman Toufiq HOD and eminent mathematician to impart quality based education and to wipe out the doubts and fears of mathematics. This was followed by the next lecture faculty of physics Mr. Jalla Srikanth as well as faculty of chemistry Mrs. Shruthi to improve the standards of education and to cope up with current trends in physics and chemistry.

The session ended with a thank note for the guests and faculty participation for their kind and priceless words and wished the First Year Students a hearty welcome to the family of Bhaskar Engineering college.

**Day-2 (02-09-2023)**

**Topic: Induction Programme**

An 'induction Programme' was conducted by the management of BEC on the second day (02-09-2023) with the intention of introducing first year students to make them aware of the current academic aspects of the course, the rules and regulations of the Institute and ensure parental participation in monitoring the performance and improvement of the students. The second session of the first day of the induction programme was on the current scenario of changing trends in computer programming, machine learning and data sciences to update their futuristic ideas of effective learning.

The second day of the induction programme was delivered by BEC Principal Prof. Dr.Sumagna Patnaik, distinguished educationist and outstanding administrator to encourage and motivate the student community. The speech was effective to make students realize the prominence of current trends of computer engineering of how students flourish with flying colours in variant IT Companies. It was a great source of information to ameliorate current trends of learning. The next session was followed with our prominent faculty of English Dr. K.V. RAM MOHAN to ignite their pedagogical aspects of learning to face interviews and enhance their communication skills in English language. The speech was a great source of information to brighten their minds to surpass the frontiers of effective learning with a motive to provide inherent skills. This was followed by faculty of CSE (JBIET) Mr. G.Rajshekar for the session and shared his experiences as an engineering student. He urged the students to keep up with the changing trends in engineering and to strive assiduously in their studies to their utmost importance. He briefed the students must decide not to have backlogs in their academics to flourish in their career.

The session was a valuable source of information and the session came to a formal end with a brief note of thankful and inspiring words.

Report on Induction Programme for First Year Students – 2023-2024

**Day-3 (04-09-2023)**

**Topic: Induction Programme**

An 'induction Programme' was conducted by the management of BEC on the third day (04-09-2023) with the intention of introducing first year students to the curriculum of Engineering education. The third session of the first day of the induction programme was to make aware of the examination pattern and design curriculum of the examinations of the Engineering stream, on the current update of changing trends in computer programming and placements.

Dr. Sumagna Patnaik the principal of BEC delivered a vivid description of the college facilities such as library, the computer and language labs etc. She explained the idea of mentoring and its purpose in making the student life easier to carefully analyse the progress of each and every student. She also urged the students to take their academics seriously and be regular to the classes to keep their attendance in a desirable level. She made a point that Engineering stands for solving problems by using available resources such as updated or recent technology. Later, she discussed the types of Engineering, important reasons to choose Engineering, rewards of opportunities, What is Engineering?, and greatest engineering achievements of the twenty-first century. She stated that students must learn to develop their technical competency in order to fulfil the demand of the market. She ended her session by suggesting few books to students to read which may change their life. Next, the induction programme was delivered by the faculty of (EEE), placement officer of BEC, Mr. Nanda Kishore to make students aware of how online courses enhance their capabilities as future engineers. He made the students aware of how our college enhance and support students to get placements in different IT companies. Our college has CRT training programmes where students have an advantage of training their skills in variant boundaries and to expose their inherent skills. He emphasized the students will be informed about the approach to teaching and learning, role of internship and faculty assistance to the students if they show interest in any projects. This was followed by Mr. Shiva Shankar Examination branch incharge briefing that time management plays an essential aspect to build the career of students. The main focus throughout the session was a valuable source of information stating the skills, knowledge and the ability to perform success in the examinations and to come out with a jubilant triumph. The last session was delivered by the faculty of Engineering and Drawing A.vanisree to brief the students about the different programmes in the institution to constantly polish their talent to suit the requirements of the industry. She stated that his session was aiming at inviting the attention of the students to the various ways in which one can be industry-ready.

In the post-lunch session, a rewinding of the curriculum process from the morning session was done and the day brought to an end with the team of resource persons. The Institute informed the students of the next day's schedule to

be shared by the concerned departments in their respective classes. The three day induction programme (2023-2024) ended with Dr. Sumagna Patnaik the principal of BEC asking students to diligently participate in various activities and their studies to succeed in their future Endeavour.
